Mr. Moses noted that Town Meeting is currently scheduled for June 22nd. He would like to know if the Board wants to keep this date. There was a lengthy discussion regarding logistics, location, public safety as well as additional costs that be incurred due to changes that must be made. Mr. Harrity, Mr. Wood and Ms. Calo all weighed in. The Board ultimately agreed to move forward with the June 22nd date.

- f) Selectmen to discuss the Re-Open Hudson Commission's draft report.

Ms. Calo briefly explained that the Commission has been working on a report on how to reopen Hudson safely. Mr. Moses stated that he gave them his opinion that the service departments in Town should work toward reopening quicker than the back offices that are still able to fulfill their mission without being open. The Commission took this advice and came up with the report that is available on BoardDocs. The suggestions in the report are only for the Town departments. This is a living document that will continually change as the Town begins to move forward in opening.

8. Citizens' Issues:

Bob D'Amelio, 9 Edgewood Drive asked if the reconstruction of Centennial Beach would move forward even though the beach will be closed this season. Mr. Santos stated that the renovation project will get underway this summer.

Tracy Ingle, 38 Lakeside Ave. noted that she was concerned and wanted to bring an issue to the Board's attention regarding rights of way that are being usurped by a single residence. There is a right of way that travels along Lakeside Ave and into the waters of Lake Boone which is access for many residents in this area. Ms. Ingle claims there is a resident that is claiming ownership of this right of way; blocking access to the water as well as a fire hydrant by way of the blockade.

Atty. Cipriano noted that the Board has received confidential correspondence regarding this issue. He noted that the fundamental issue here is whether it is a responsibility to the Town as it deals with a private way with private use. The Town does not see a basis for public input.

Ms. Ingle questioned how this is not a Town issue when it impacts between 50 and 80 houses in Town. Atty. Cipriano sees this as a private issue amongst the residents. There was a discussion regarding whether this is or is not a public way and whether there is a home owners association for the residents in this area.

Atty. Cipriano stated he will not be weighing in on behalf of the Town on a private legal issue.

9. Town Issues:

Mr. Duplisea asked for an update on the progress of the rotary progress. Mr. Ryder explained that the rotary project is heavily underway and work and progress continue.

Mr. Duplisea asked Mr. Santos why exactly why the beach is closed this season. Mr. Santos explained that the restrictions are too difficult to manage the facility as well as the health and safety of the patrons and the staff.
