Westwood, MA 02090

## **Sudbury to Hudson Transmission Reliability Project**

### **Increased Traffic in your Area**

**Spring/Summer 2023**

Dear Neighbor,

Starting soon, Eversource will begin constructing a new underground transmission line along Forest Ave and Wilkins Street in Hudson, by installing pre-cast concrete vaults, also referred to as manholes. To make room for the work, traffic detours will be set up leading to an increased traffic flow in your area. Please know that project construction is not expected to interrupt electric service.

### **What You Can Expect**

Eversource is working with local officials to ensure traffic is managed in a manner that maintains safe working conditions and minimizes impacts to vehicular and pedestrian traffic. For your immediate area, please see the attached detour for what to expect. Please note that Eversource and local officials may make in field alterations as necessary.

For updates on detours, please visit the Project Website: [www.eversource.com/content/sudbury-hudson-project](http://www.eversource.com/content/sudbury-hudson-project)
