School Street- Traffic Circulation and On-Street Parking

ITC members discussed at length the problematic traffic congestion along School Street during the recent overnight work associated with the Washington Street Bridge Replacement project. It was noted that while the overnight work will be ending, School Street will be functioning as a major detour route for pedestrian and vehicular traffic during the 105-day Bridge shutdown. Members expressed serious concerns that maintaining the existing on-street parking during the 105-day shutdown will impede public safety access to School Street and Downtown overall.

Jeff Wood moved, seconded by Chief Blood to request that the Board of Selectmen enact a temporary moratorium on on-street parking along School Street from Washington Street to Houghton Street. 4-0-0
