**Board of Assessors
Annual Report
2020**

The primary role of the Board of Assessors is to value all Real and Personal property subject to tax in the Town of Hudson. The Assessors strive to maintain accuracy and predictability of a stable property base during a time of ever-changing economies and market conditions. Our assessed valuations are based on “fair cash value,” which is what a willing seller and willing buyer would pay in an open market. The fair cash value standard ensures that each property owner pays only their fair share of the tax burden. We have consistently exceeded requirements during the annual state reviews and certifications by the Department of Revenue now every five (5) years.

As of January 1, 2019 (the assessment date for fiscal year 2020), the average single-family home was valued at \$394,762 compared to \$372,142 the previous year, a 5.7 % increase of value. The last 6 years (\$278,770 to \$394,762), we have seen an increase in values compared to the prior 7 years of steady decline from FY08 to FY14 (\$356,788 to \$278,770). The current trend also shows values continuing to increase going forward into FY21. FY20 surpassed the previous high from FY07 of \$ 378,884.

Total valuation of the town was \$ 2.91 billion generating revenue of 55.1 Million. 51 valuation abatements were granted totaling \$ 55.1K while the town issued 143 exemptions totaling an additional \$ 127K. Full details are included as part of our exhibit.

There have been no increases in office staffing and continues to perform well. This is reflective of experience of the staff in addition to the accuracy of the data. This also results in the relatively low level of abatement applications. Due to this fact, the Board has consistently returned unused overlay for general use by the Town. In lieu of a Town Appraiser the Town has engaged the contract services of Vision Appraisal of Northborough. As noted below, Vision also provides the software platform the Town uses to compile values.

The Board belongs to various state and international associations including Mass Chapter IAAO, Middlesex County Assessors, and MAAO. These affiliations allow us to remain updated on the latest developments in our field.

The Vision Appraisal software continues to operate well. A recent upgrade to Vision 8 and coordinated technology investments, such as mobile applications, will further assist the accuracy of our software and data. The expertise of our Office staff of Joanne McIntyre and Christine DiMare continue to satisfy the community’s needs. The Board also continues to offer the alternative of an external contract for visiting single family homes and collecting data. A systematic visit program is required by the State. The Board has assumed this role to not only obtain more accurate data but also to avoid the potential higher cost of contracting this service.

Respectfully Submitted,

Brian Bowen – Chairman

Christine Griffin

Joanne McIntyre
