FOR IMMEDIATE RELEASE 6/28/2021

HUDSON COVID-19 UPDATE

From Monday, June 21 to Monday, June 28, 2021, the total number of residents who tested positive for COVID-19 in Hudson remained at 1628. There were no additional cases reported to the Hudson Board of Health by the Massachusetts Department of Public Health (MDPH).

Due to the positive trend in Hudson and across the Commonwealth, the Hudson Board of Health will discontinue the weekly press releases. Weekly updates can be found on the Hudson Health Department website here [Coronavirus \(COVID-19\) Updates — Hudson Health Department \(hudsonhealthdept.org\)](https://www.hudsonhealthdept.org). Additional COVID-19 response reporting including daily and cumulative reports on Massachusetts COVID-19 cases, testing, and hospitalizations can be found on the State's DPH website here [COVID-19 Response Reporting | Mass.gov](https://www.mass.gov).

The Hudson Health Department would like to take this opportunity to thank the community for their support, strength and resiliency throughout the pandemic. The COVID-19 pandemic has brought out the best in many people—people who have shown compassion and empathy and offered a helping hand to others during this extraordinary time.

We truly appreciate the community for taking measures to prevent the spread of COVID-19, including practicing physical (social) distancing and wearing facial coverings. We would like to thank the Hudson municipal offices and businesses, and all other sectors for working with us to adhere to State guidelines in an effort to keep your staff and community safe. We would also like to thank those who have been vaccinated for COVID-19 to keep you, your family, and our community healthy. While the past 15 months have been tough for everyone, we are enthusiastic that we are finally on a path to returning to normal.

As the saying goes, “it takes a village”.

Stay well,

Kelli M. Calo
Director of Public and Community Health
