

Construction in Hudson, Sudbury, Stow & Marlborough October 2022

Dear Neighbor,

Starting soon, Eversource's approved contractor, BOND Civil & Utility Construction, will be in your neighborhood to begin construction activities on the Eversource 115 kV Transmission Reliability Project (Sudbury to Hudson). Crews from BOND Civil & Utility Construction will be working in the inactive MBTA corridor in Sudbury, Hudson, Stow, and Marlborough over the coming months. To complete this work, crews will maintain a work zone of approximately 20-40 feet, depending on location, in the inactive MBTA corridor.

Construction Hours

Beginning on October 24, 2022 crews from BOND will start performing site preparation for the installation of duct bank and manholes (vaults) between **7 AM – 5 PM, Monday – Friday, in Hudson between White Pond Road and the Sudbury Town line**. Occasional work may extend beyond these hours based on approval from local officials.

Initial Construction Activities

Over the next few weeks, you will see contractors mobilizing in your neighborhood to begin construction on the Project. Initial activities will include the following:

- Setting safe and secure work zones, including silt fencing and erosion controls.
- Vegetation removal in the inactive MBTA corridor.
- Removal of rails and ties.

Traffic Management

We coordinate closely with local Police Departments and Town officials to maintain a safe and effective flow of traffic around project work areas. Local access to property owners and businesses will be maintained along with vehicle traffic.
