

Eversource 115-kV Transmission Project Update

Greetings!

Members of the community can expect to continue seeing construction activities related to the Eversource 115-kilovolt (kV) Underground Transmission Line Project at several locations in Hudson and Sudbury. During construction (including after hours and on weekends), Eversource asks people in the area to avoid walking along and crossing the inactive MBTA corridor. Construction is not expected to interrupt electric service.

Project Route Map

Work Hours

Approved work hours are 7 a.m. to 6 p.m., Monday to Friday but crews are working from 7 a.m. to 3:30 p.m. Occasional work may extend beyond the approved hours, due to unforeseen conditions, based on feedback from Town staff.

Below is an overview of the active and upcoming work zones in Hudson and Sudbury.

Hudson

- In the inactive Massachusetts Bay Transportation Authority (MBTA) rail corridor, between Wilkins Street and Main Street, crews are removing rails and ties and grading sections of the limits of work, which includes moving soils. From Main Street to the Town line, crews are grading the limits of work. Installation of a cable vault (MH12), between Parmenter Road and White Pond Road, is scheduled to start in two weeks. Please [view the Project Map](#) for more details on the specific location of cable vaults.

- **Off Forest Avenue**, between Hudson Light & Power and the installed cable vault (MH1), crews are backfilling the trench. Active construction will NOT occur on Forest Avenue until Spring 2023.

Sudbury

- **In the inactive MBTA rail corridor in Sudbury** crews are clearing vegetation and starting to install sediment and erosion controls between the Sudbury Substation (163 Boston Post Road) and Bridge 127. Starting next week, between the Town line and Dutton Road, crews will begin removing vegetation heading east.
- **Off Boston Post Road**, at the Eversource Sudbury Substation, G. Greene Construction will be working inside the fence line and on Eversource property.

Stay Informed

Eversource is committed to being a good neighbor and doing any work with respect for you and your property. If you have questions or concerns, please contact us using one of the methods below or respond to this message.

- Dial **1-833-836-0302**
- Email ProjectInfoMa@eversource.com
- Visit the [website](#) for this project
- View the [interactive project map](#)
- View information on [rail trail access](#) during construction
- **Field outreach representatives** will be in touch with notices updating you on construction activities.

Sudbury to Hudson Transmission Reliability Project

Construction Update

Winter 2023

Dear Neighbor,

Eversource's contractor BOND Civil & Utility Construction and their subcontractors (ET&L Construction Corporation, M-O-N Landscaping Inc., and Moosehead LLC) are working on the Eversource 115-kilovolt (kV) Transmission Reliability Project in your area. This upgrade is one of a group of projects designed to improve the reliability of the electric system. Construction activities are not expected to interrupt electric service.

Initial activities in the inactive MBTA rail corridor include site preparation such as vegetation removal, railroad tie removal, and grading. In the coming weeks, contractors will begin the installation of cable vaults (manholes). The work area for the cable vault will be between Parmenter Road and White Pond Road in Hudson. Photos on the back side of this letter show examples of what this work looks like. Please scan the QR code below to sign-up for routine email updates if you'd like to learn more about the Project.

Work Hours

Approved work hours are 7 a.m. to 6 p.m., Monday to Friday but crews will be working **from 7 a.m. to 3:30 p.m.** Due to unforeseen conditions like weather, occasional activities may extend beyond these approved hours based on feedback from municipal officials.

Traffic Management

We coordinate closely with the local Police Departments and Town officials to maintain a safe and effective flow of traffic around work areas. Local access to property owners and businesses will be maintained along with vehicle traffic.
