A. Centennial Beach Renovation Project Update
Mr. Santos provided the Park Commission with a project update stating that the cost estimates for the buildings were much higher than originally expected. Stating further that he and the building committee were working with Weston & Sampson to look at alternative building options however this could take several weeks to finalize. Mr. Santos asked for the Commissioners input on whether or not they’d prefer to hold off on actual construction until the fall of 2021 rather than starting in the spring, stopping during the beach season and then restarting in the fall again.
Mr. Chaves stated that he felt we should wait until the fall to begin the construction phase of the project due to the uncertain number of viable working weeks during the spring construction season.
Mr. Bowen stated that he was open to a fall 2021 start date but wanted to see the project go out to bid this coming winter, so that we would be guaranteed to start no later than the fall of 2021, with a total project completion date of no later than spring of 2022.
Mr. Chaves encouraged the Recreation Staff to work with Weston & Sampson to do complete some minor project items or site improvements this coming winter and spring in order to move the project along but to hold off on the major construction phase as previously mentioned. Discussion followed.
Mr. Bowen and Mr. Roan stated that they also supported this plan.

Mr. Santos stated that he had not yet created a set of guidelines and/or restrictions for the Park Commission to review relative the MOU/MOA between the Commission and Smile 2 Play – The Hudson Playground project. However, in the coming weeks he hoped to begin discussions with town officials in Chelmsford MA who were involved in a similar project of scope and size, to get a better understanding of how they collaborated with the non-profit group in their community.
