When a structure, which has received a special permit for use and operation of a Bed and Breakfast, is sold, the new owners(s), if they wish to continue to exercise the Special Permit, must, within thirty (30) days of the purchase, submit a notarized letter to the Building Commissioner stating that they will occupy the premises as their primary residence, except for bona fide temporary absences.
6. Prior to issuance of a special permit, a site plan, as well as floor plans for the entire premises including detailed plans of all interior and exterior changes to be made to the premises must be submitted for review.

5.2.7.5 Administration and Enforcement

1. It shall be the duty of the Building Commissioner as Zoning Enforcement Officer to administer and enforce the provisions of this Bylaw.
2. No building shall be changed in use or configuration, until the Building Commissioner has issued a building permit. Any building alteration shall conform to all adopted state and town laws, bylaws, codes and regulations.
3. The Building Commissioner shall refuse to issue any permit, which would result in a violation of any provision of this Section or in a violation of the conditions or terms of any special permit or variance granted by the Board of Appeals.
4. The Building Commissioner shall have the authority to issue a cease and desist order on any work in progress or on the use of any premises, either of which are in violation of the provisions of this Section.
5. Construction or use according to a building permit or special permit shall conform to any subsequent amendment of this Section unless the construction or use is begun with a period of not more than six months after the issuance of a permit granted before the effective date of the amendment. To qualify for this exemption, construction must be completed in a continuous and expeditious manner.

5.6 OPEN SPACE RESIDENTIAL DEVELOPMENT

Open Space Residential Development (OSRD)

Purpose and intent.

- 1) The Primary Purposes for this bylaw are the following:
 - a) To allow for greater flexibility and creativity in the design of residential developments;
 - b) To encourage the permanent preservation of open space, agricultural land, forestry land, wildlife habitat, other natural resources including aquifers, water bodies and wetlands, and historical and archaeological resources;

- c) To encourage a less sprawling and more efficient form of development that consumes less open land and conforms to existing topography and natural features;
 - d) To minimize the total amount of disturbance on the site;
 - e) To further the goals and policies of the Town of Hudson Community Development Plan and Open Space and Recreation Plan;
 - f) To facilitate the construction and maintenance of housing, streets, utilities, and public services in a more economical and efficient manner.
- 2) The Secondary Purposes for this bylaw are the following:
- a) To preserve and enhance the community character;
 - b) To protect and enhance the value of real property;
 - c) To provide for a diversified housing stock;
 - d) To provide affordable housing to persons of low and moderate income.

5.6.1 Definitions

- 1) **Basic Maximum Number** – The number of units that would be allowed on a site using the standard Zoning Bylaw Provisions and/or Subdivision Rules and Regulations as determined by a Yield Plan as described in 5.6.4 (a).
- 2) **Hard Stormwater Management Techniques** – Structural stormwater management techniques including, but not limited to, catch basins, subsurface piping, stormwater inlets, and subsurface leaching facilities. These techniques generally require heavy infrastructure and often result in significant alteration of the site hydrology.
- 3) **Low-Income Household** – These households shall be defined as those in the “Very Low Income” affordability range as published annually by the Department of Housing and Urban Development (HUD).
- 4) **Major Residential Development**-Any new development that will create more than four (4) residential lots
- 5) **Moderate Income Household** – These households shall be defined as those in the “Low Income” affordability range as published annually by the Department of Housing and Urban Development (HUD).
- 6) **Soft Stormwater Management Techniques** – Non-structural stormwater management techniques that use passive surface pre-treatment of stormwater in conjunction with decentralized recharge to achieve a low-impact design that attempts to mimic pre-development hydrologic conditions to the greatest practicable extent.

5.6.2 Applicability

- 1) Any Major Residential Development may be permitted by issuance of a Special Permit from the Planning Board for OSRD in accordance with this bylaw.
- 2) Developments of 4 lots or smaller may also apply for an OSRD Special Permit subject to the following criteria:
 - a) **Contiguous Parcels.** To be eligible for consideration as an OSRD, the tract shall consist of a parcel or set of contiguous parcels. The Planning Board may determine that two or more parcels separated by a road or other man-made feature are “contiguous” for the purpose of this section, if they will serve as a singular resource and effectively satisfy the Purpose and Intent of this bylaw as listed in Section 5.6.1.
 - b) **Land Division.** To be eligible for consideration as an OSRD, the tract may be a subdivision or a division of land pursuant to G.L. c. 41, § 81P provided, however, an OSRD may also be permitted when the property is held in condominium, cooperative ownership or other form where the property is not subdivided.

5.6.3 Pre-application

- 1) **Conference.** The applicant is very strongly encouraged to request a pre-application review at a regular business meeting of the Planning Board. If one is requested, the Planning Board shall invite the Conservation Commission, Board of Health, Department of Public Works, Fire Chief, Police Chief and Building Commissioner. The purpose of a pre-application review is to minimize the applicant’s costs of engineering and other technical experts, and to commence discussions with the Planning Board at the earliest possible stage in the development. At the pre-application review, the applicant may outline the proposed development including both conventional and OSRD models, seek preliminary feedback from the Planning Board and/or its technical experts, and set a timetable for submittal of a formal application. The Planning Board may engage technical experts to review the informal plans of the applicant and to facilitate submittal of a formal application for an OSRD Special Permit. An Applicant shall be required to pay for reasonable consulting fees to provide peer review of the OSRD application. Such fees shall be held by the Town in a separate account and used only for out-of-pocket expenses associated with the review of the OSRD application by outside consultants, including, but not limited to, attorneys, engineers, urban designers, housing consultants, planners, and other professionals. Any surplus remaining after the completion of such review shall be returned to the Applicant forthwith.
- 2) **Submittals.** In order to facilitate review of the Special Permit at the pre-application stage, applicants are strongly encouraged to submit the following information:

- a) **Site Context Map.** This map shall illustrate the parcel in connection to its surrounding neighborhood. Based upon existing data sources and field inspections, it shall show various kinds of major natural resource areas or features that cross parcel lines or that are located on adjoining lands. This map enables the Planning Board to understand the site in relation to what is occurring on adjacent properties.
 - b) **Existing Conditions/Site Analysis Map.** This map familiarizes officials with existing conditions on the property. Based upon existing data sources and field inspections, this base map shall locate and describe noteworthy resources that could be protected through sensitive subdivision layouts. These resources shall include wetlands, riverfront areas, floodplains and steep slopes, but may also include mature nondegraded woodlands, hedgerows, farmland, unique or special wildlife habitats, historic or cultural features (such as old structures or stone walls), unusual geologic formations and scenic views into and out from the property. Where appropriate, photographs of these resources should accompany the map. By overlaying this plan onto a development plan, the parties involved can clearly see where conservation priorities and desired development overlap/conflict.
 - c) **Other Information.** In addition, applicants are encouraged to submit the information set forth in 5.6.5(1) in a form acceptable to the Planning Board.
- 3) **Site Visit.** Applicants are encouraged to request a site visit by the Planning Board and/or its Agents in order to facilitate pre-application review of the Special Permit. If one is requested, the Planning Board shall invite the Conservation Commission, Board of Health, Department of Public Works, Fire Chief, Police Chief and Building Commissioner.
 - 4) **Design Criteria.** The design process and criteria set forth below in Sections 5.6.6 and 5.6.7 should be discussed by the parties at the pre-application conference and site visit.

5.6.4 OSRD Application for Special Permit

The Planning Board, acting as the Special Permit Granting Authority (SPGA), may authorize an OSRD Special Permit pursuant to the procedures outlined below.

- 1) **Application.** An application for the Special Permit shall be submitted on the form(s) provided by the Planning Board as most recently amended. Applicants for OSRD shall also file with the Planning Board 15 copies of the Concept Plan. The Concept Plan shall include a Yield Plan and a Sketch Plan [see Subsections 1a and 1b of this Section], prepared by a multidisciplinary team including a registered land surveyor, a registered professional engineer and a registered landscape architect. The applicant shall also submit both the Site Context Map and Existing Conditions/Site Analysis Map prepared according to Section 5.6.4 (2) above. Additional information reasonably necessary to make the determinations and

assessments cited herein shall be provided, including existing site contour maps and existing current soil maps.

- a) **Yield Plan.** The Basic Maximum Number of allowable units shall be derived from a Yield Plan. The Yield Plan shall show a conventional development conforming to the applicable Zoning Bylaw provisions and Subdivision Rules and Regulations to show the maximum number of lots (or dwelling units) that could be placed upon the site under a conventional approach. The proponent shall have the burden of proof with regard to the Basic Maximum Number of lots resulting from the design and engineering specifications shown on the Yield Plan. The Yield Plan shall contain, at a minimum, the following information:
 - i) Parcel boundaries, north point, date, legend, title “Yield Plan,” and scale.
 - ii) The name and address of the record owner or owners, the applicant, and the design engineer and/or land surveyor that prepared the plan.
 - iii) The names, approximate location, and widths of adjacent streets.
 - iv) Existing topography at 2-foot contour intervals.
 - v) Map of soils using NRCS soils mapping.
 - vi) All on-site local, state, and federal regulatory resource boundaries and buffer zones shall be clearly identified, and all wetland flag locations shall be numbered and placed upon the Yield Plan.
 - vii) Lot lines with approximate areas and frontage dimensions, or unit placements and proposed common areas.
 - viii) Location and extent of parking, landscaping, stormwater management, water supply and wastewater management service areas that would be required to accommodate the use.
 - ix) If available, the location and results of any test pit investigations for soil profiles, percolation rates and determination of seasonal high ground water levels.

- b) **Sketch Plan.** The Sketch Plan shall address the OSRD by taking into consideration the general features of the land, and shall give approximate configurations of the proposed lots, of unit placements if treated as a condominium, of open space, and roadways. The Sketch Plan shall incorporate the Four-Step Design Process, according to Section 5.6.6 below, and the Design Standards, according to Section 5.6.7 below, when determining a proposed design for the development. In addition to those requirements for a Yield Plan listed in Section 5.6.5(1)a, a Sketch Plan shall contain the following information:
 - i) The proposed topography of the land shown at a contour interval no greater than two feet. Elevations shall be referred to mean sea level.
 - ii) The location of existing landscape features, including forests, farm fields, meadows, wetlands, riverfront areas, water bodies, archaeological and historic structures or points of interest, rock outcrops, boulder fields, stone walls, cliffs, high points, major land views, forest glades, major tree groupings, noteworthy tree specimens, and habitats of endangered or threatened wildlife, as identified as primary and secondary resources according to Section 6.A. Proposals for all site features to be preserved, demolished, or altered shall be noted on the Sketch Plan.
 - iii) The existing and proposed lines of streets, ways, common driveways,

easements and any parcel of land intended to be dedicated for public use or to be reserved by deed covenant for use of all property owners in the subdivision, or unit development, or parcels of land or lots to be used for any purpose other than private residential shall be so designated within the subdivision in a general manner.

- iv) Proposed roadway grades.
- v) Official soil percolation tests for the purpose of siting wastewater treatment options shall be required as determined by the Planning Board. However, a narrative explanation shall be prepared by a Massachusetts Certified Professional

Engineer detailing the proposed wastewater systems that will be utilized by the development and its likely impacts on-site and to any abutting parcels of land. For example, the narrative will specify whether individual on-site or off-site systems, shared systems, alternative to Title V systems, or any combination of these or other methods will be utilized.

- vi) A narrative explanation prepared by a Massachusetts Certified Professional Engineer proposing systems for stormwater drainage and likely impacts onsite and to any abutting parcels of land. For example, the narrative will specify whether Soft or Hard Stormwater Management Techniques will be used and the number of any detention/retention basins or infiltrating catch basins; it is not intended to include specific pipe sizes. Any information needed to justify this proposal should be included in the narrative. The approximate location of any stormwater management detention/retention basins shall be shown on the plan and accompanied by a conceptual landscaping plan.
 - vii) A narrative explanation prepared by a Massachusetts Certified Professional Engineer, detailing the proposed drinking water supply system.
 - viii) A narrative explanation of the proposed quality, quantity, use and ownership of the open space. Open space parcels shall be clearly shown on the plan.
 - ix) All proposed landscaped and buffer areas shall be noted on the plan and generally explained in a narrative.
 - x) A list of all legal documents necessary for implementation of the proposed development, including any Conservation Restrictions, land transfers, and Master Deeds or condominium documents, with an accompanying narrative explaining their general purpose.
 - xi) A narrative indicating all requested waivers, reductions, and/or modifications as permitted within the requirements of this bylaw.
- c) **Procedures.** Whenever an application for an OSRD Special Permit is filed with the Planning Board, the Board shall also file, within five (5) working days of the filing of the completed application, copies of the application, accompanying development plan, and other documentation, to the Board of Health, Conservation Commission, Building Commissioner, Department of Public Works, Police Chief, Fire Chief, and the Town's Engineering Consultant for their consideration, review, and report. The applicant shall furnish the copies necessary to fulfill this requirement. Reports from other boards and officials shall be submitted to the Planning Board within thirty-five (35) days of receipt of

the reviewing party of all of the required materials; failure of these reviewing parties to make recommendations after having received copies of all such required materials shall be deemed a lack of opposition thereto. In the event that the public hearing by the Planning Board is held prior to the expiration of the thirty-five-day period, the Planning Board shall continue the public hearing to permit the formal submission of reports and recommendations within that thirty five-day period. The Decision/Findings of the Planning Board shall contain, in writing, an explanation for any departures from the recommendations of any reviewing party.

- d) **Site Visit.** Whether or not conducted during the pre-application stage, the Planning Board shall conduct a site visit during the public hearing. At the site visit, the Planning Board and/or its agents shall be accompanied by the applicant and/or its agents.
- e) **Other Information.** The submittals and permits of this section shall be in addition to any other requirements of the Subdivision Control Law or any other provisions of this Zoning Bylaw. To the extent permitted by law, the Planning Board shall coordinate the public hearing required for any application for an OSRD Special Permit with the public hearing required for approval of a definitive subdivision plan.

5.6.5 Design Process

At the time of the application for the Special Permit, in conformance with Section 5.6.5(1), applicants are required to demonstrate to the Planning Board that the following Design Process was performed by a multidisciplinary team of which one member must be a certified Landscape Architect and considered in determining the layout of proposed streets, house lots, unit placement if treated as a condominium, including designation of all common areas and open space.

- 1) **Identifying Conservation Areas.** Identify preservation land by two steps. First, Primary Conservation Areas (such as wetlands, riverfront areas, and floodplains regulated by state or federal law) and Secondary Conservation Areas (including unprotected elements of the natural landscape such as steep slopes, mature woodlands, prime farmland, meadows, wildlife habitats and cultural features such as historic and archaeological sites and scenic views) shall be identified and delineated. Second, the Potentially Developable Area shall consist of land outside identified Primary and Secondary Conservation Areas.
- 2) **Locating House Sites.** Locate the approximate sites of individual houses within the Potentially Developable Area and include the delineation of private yards and shared amenities, so as to reflect an integrated community.
- 3) **Aligning the Streets and Trails.** Align streets in order to access the house lots or units. Additionally, new trails should be laid out to create internal and external connections to existing and/or potential future streets, sidewalks, and trails.
- 4) **Lot Lines.** Draw in the lot lines using assumed lot lines if the ownership is in condominium,

cooperative or other similar form of common ownership.

5.6.6 Design Standards.

The following Generic and Site Specific Design Standards shall apply to all Sketch Plans for OSRD's and shall govern the development and design process:

1) Generic Design Standards

- a) The landscape shall be preserved in its natural state, insofar as practicable, by minimizing tree and soil removal. Any grade changes shall be in keeping with the general appearance of the neighboring developed areas. The orientation of individual building sites shall be such as to maintain maximum natural topography and cover. Topography, tree cover, surface water buffers, and natural drainage ways shall be treated as fixed determinants of road and lot configuration rather than as malleable elements that can be changed to follow a preferred development scheme.
- b) Streets shall be designed and located in such a manner as to maintain and preserve natural topography, significant landmarks, and trees; to minimize cut and fill; and to preserve and enhance views and vistas on or off the subject parcel. A reduction in required pavement width shall be considered by the Planning Board.
- c) Mixed-use development, if allowed in the underlying district, shall be related harmoniously to the terrain and the use, scale, and architecture of existing buildings in the vicinity that have functional or visual relationship to the proposed buildings.
- d) All open space (landscaped and usable) shall be designed to add to the visual amenities of the area by maximizing its visibility for persons passing the site or overlooking it from nearby properties.
- e) The removal or disruption of historic, traditional or significant uses, structures, or architectural elements shall be minimized insofar as practicable, whether these exist on the site or on adjacent properties.

2) Site Specific Design Standards

- a) **Mix of Housing Types.** The OSRD may consist of any combination of single-family and two-family structures. Multifamily structures of not more than four (4) units may also be permitted by the Planning Board if they serve the purpose and intent of the OSRD Bylaw, as stated in Section 5.6.1.
- b) **Parking.** Each dwelling unit for single or two-family homes shall be served by two (2) off-street parking spaces per unit. Parking spaces in front of garages may count in

this computation. For dwelling units with fewer than two bedrooms AND in structures containing four or more units, the applicant shall provide one and a half-(1.5) parking spaces per unit. Calculations for parking spaces in these developments shall be rounded up to the nearest integer where necessary. The Planning board may choose to modify these requirements during the review process in response to conditions specific to an individual proposal.

- c) **Drainage.** The Planning Board shall encourage the use of Soft Stormwater Management Techniques and other Low Impact Development techniques that reduce impervious surface and enable infiltration where appropriate.
- d) **Screening and Landscaping.** All structural surface stormwater management facilities shall be accompanied by a conceptual landscape plan.
- e) **On-site Pedestrian and Bicycle Circulation.** Walkways, trails and bicycle paths shall be provided to link residences with recreation facilities (including parkland and open space) and adjacent land uses where appropriate.
- f) **Disturbed Areas.** Every effort shall be made to minimize the area of disturbed areas on the tract. A disturbed area is any land not left in its natural vegetated state.

5.6.8 Open Space Requirements

- 1) **Open Space Requirement.** A minimum of fifty percent (50%) of the site shall be open space. The percentage of this open space that can be wetland shall not exceed the percentage of wetland for the entire site under existing conditions as shown on the Sketch Plan.
- 2) **Description of Restriction on Open Space.** Any proposed open space, unless conveyed to the Town or its Conservation Commission, shall be subject to a permanent Conservation or Agricultural Preservation Restriction in accordance with G.L. c. 184 § 31, approved by the Planning Board and Board of Selectmen and enforceable by the Town, conforming to the standards of the Massachusetts Executive Office of Environmental Affairs, Division of Conservation Services, or Department of Agricultural Resources. Such land shall be perpetually kept in an open state, shall be preserved exclusively for the purposes set forth herein, and shall be maintained in a manner which will ensure its suitability for its intended purposes. Any proposed open space that does not qualify for inclusion in a Conservation Restriction or Agricultural Preservation Restriction or that is rejected from inclusion in these programs by the Commonwealth of Massachusetts shall be subject to a Restrictive Covenant, which shall be approved by the Planning Board and Board of Selectmen and enforceable by the Town.
 - a) The open space shall be contiguous. Open Space will still be considered contiguous if it is separated by a roadway or an accessory amenity. The Planning Board may waive

this requirement for all or part of the required open space where it is determined that allowing noncontiguous open space will promote the goals of this bylaw and/or protect identified primary and secondary conservation areas.

- b) The open space shall be used for wildlife habitat and conservation and the following additional purposes: historic preservation, outdoor education, passive recreation, aquifer protection, agriculture, horticulture, forestry, a combination of these uses, and shall be served by suitable public access for such purposes. The Planning Board may permit a small portion of the open space to be paved or built upon for structures accessory to the dedicated use or uses of such open space (i.e., pedestrian walks and bike paths) so long as it supports the primary and secondary purposes of the OSRD and is consistent with state and local level environmental protections.
 - c) Wastewater and stormwater management systems serving the OSRD may be located within the open space. Surface systems, such as retention and detention ponds, shall not qualify towards the minimum open space required.
- 3) **Ownership of the Open Space.** The open space shall, at the Planning Board's election, be conveyed to:
- a) The Town or its Conservation Commission;
 - b) A nonprofit organization, the principal purpose of which is the conservation of open space and any of the purposes for such open space set forth above;
 - c) A corporation, homeowners association or trust owned jointly or in common by the owners of lots or units within the OSRD. If such corporation or trust is utilized, ownership thereof shall pass with conveyance of the lots in perpetuity. Maintenance of such open space and facilities shall be permanently guaranteed by such corporation or trust which shall provide for mandatory assessments for maintenance expenses to each lot and unit. Each individual deed, and the deed or trust or articles of incorporation, shall include provisions designed to effect these provisions. Documents creating such homeowners association, trust or corporation shall be submitted to the Planning Board for approval, and shall thereafter be recorded.
 - d) A private owner for agricultural, horticultural or forestry.
- 4) **Maintenance of Open Space.** In any case where open space is not conveyed to the Town, the Town shall be granted an easement over such land sufficient to ensure its perpetual maintenance as conservation or recreation land. Such easement shall provide that in the event the trust or other owner fails to maintain the open space in reasonable condition, the Town may, after notice to the lot owners and public hearing, enter upon such land to maintain it in order to prevent or abate a nuisance. The cost of such maintenance by the Town shall be assessed against the properties within the development and/or to the owner of the open space. The Town may file a lien against the lot or lots to ensure payment of such maintenance.

5.6.9 Reduction of Dimensional Requirements

Applicant may propose to modify lot size, unit placement, shape, and other dimensional requirements for lots within an OSRD, subject to the following limitations:

- 1) **Frontage.** Lots having reduced area or frontage shall not have frontage on a street other than a street created by the OSRD; provided, however, that the Planning Board may waive this requirement where it is determined that such reduced lot(s) will further the goals of this bylaw. The minimum frontage may be reduced from the frontage otherwise required in the zoning district; provided, however, that no lot shall have less than 50 feet of frontage.
- 2) **Setbacks.** Every dwelling fronting on the proposed roadways shall be set back a minimum of 20 feet from the roadway right-of-way, and 10 feet from any rear or side lot line. In no event shall structures be closer than 20 feet to each other. Where structures containing three to four dwelling units are being proposed, the side lot lines between units may be 0 feet, however the distance between structures shall be a minimum of 20 feet.

5.6.10 Increases in Permissible Density

The Planning Board may award a density bonus to increase the number of dwelling units beyond the Basic Maximum Number for an OSRD Plan. The density bonus for the OSRD shall not, in the aggregate, exceed twenty percent (20%) of the Basic Maximum Number. Computations shall be rounded up to the next whole number. A density bonus may be awarded in the following circumstances:

- 1) For each additional ten percent (10%) of the site (over and above the required 50%) set aside as open space, a bonus of one (1) market unit may be added to the Basic Maximum Number. Calculations shall be rounded up to the nearest integer when determining this bonus.
- 2) For every two (2) dwelling units restricted in perpetuity to occupancy by Moderate-Income Households, or for every one (1) dwelling unit restricted in perpetuity to occupancy by Low-Income Households, one (1) market rate dwelling unit may be added to the Basic Maximum Number. Affordable housing units may be used toward density bonuses only if they can be counted toward the Town's affordable housing inventory as determined by the Massachusetts Department of Housing and Community Development or its successor. The applicant shall provide documentation demonstrating that the unit(s) shall count toward the community's affordable housing inventory to the satisfaction of the Planning Board.
- 3) For every historic structure preserved and subject to a historic preservation restriction, one (1) dwelling unit may be added to the Basic Maximum Number.

5.6.11 Decision of the Planning Board

- 1) **Criteria for Approval.** The Planning Board will review all data and hold a public hearing

in accordance with M.G.L.c.40A, section 9. The Board may approve the Plan with or without conditions. The Board shall disapprove the plan only if it finds that either the OSRD Development (Sketch Plan) is not a good faith design, or that the Plan does not conform to the requirements of the Bylaw. The Board may grant a Special Permit for an OSRD if it determines that the proposed OSRD has less detrimental impact on the tract than a conventional subdivision of the property and finding that the following eight (8) factors are present:

- a) That the OSRD achieves greater flexibility and creativity in the design of residential or unit developments than a conventional plan;
 - b) That the OSRD promotes permanent preservation of open space, agricultural land, forestry land, other natural resources including water bodies and wetlands, and historical and archaeological resources;
 - c) That the OSRD promotes a less sprawling and more efficient form of development that consumes less open land and conforms to existing topography and natural features better than a conventional subdivision;
 - d) That the OSRD reduces the total amount of disturbance on the site;
 - e) That the OSRD furthers the goals and policies of existing community planning documents including, but not limited to, the Open Space and Recreation Plan, and EO418 Community Development Plan;
 - f) That the OSRD facilitates the construction and maintenance of streets, utilities, and public services in a more economical and efficient manner;
 - g) That the Concept Plan and its supporting narrative documentation complies with all sections of this zoning bylaw.
 - h) That the proposed design does not create undo risk to public health, safety and welfare.
- 2) **Relationship between Concept Plan and Definitive Subdivision Plan.** Any Special Permit for OSRD that is granted a Special Permit and shows a subdivision must be followed by the submittal of a Definitive Subdivision plan in accordance with the Subdivision Rules and Regulations of the Town. The OSRD Special Permit shall be reconsidered if there is substantial variation between the Definitive Subdivision Plan and the Concept Plan. If the Planning Board finds that a substantial variation exists, it shall hold a public hearing on the modifications to the Concept Plan. A substantial variation shall be any of the following:
- a) An increase in the number of building lots and/or units;
 - b) A significant decrease in the open space acreage;

- c) A significant change in the lot layout or unit placement;
- d) A significant change in the general development pattern which adversely affects natural landscape features and open space preservation;
- e) Significant changes to the stormwater management facilities; and/or
- f) Significant changes in the wastewater management systems.

configuration of parking areas or materially change the location, design or extent of approved Project improvements and site features. Such minor changes shall be depicted on redlined prints of the plans that were the subject of the Plan Approval and submitted to the Plan Approval Authority accompanied by such forms as may be provided by the Plan Approval Authority. The Plan Approval Authority may authorize such changes at a scheduled public meeting without needing to provide notice or hold a public hearing, and may generally authorize the Town Planner as its agent to approve specific categories of minor changes on its behalf in the field, subject to subsequent ratification by the Board. Any decision concerning the approval or denial of a request for minor change shall be documented in writing with a copy provided to the applicant and filed with the Town Clerk.

5.10.13.2 *Major Change* - Project changes that do not qualify as minor changes because of their nature or extent in relation to the Project approved by the Plan Approval shall be processed as either a new Plan Approval application or as a modification to the existing approved Plan Approval, under all of the applicable procedural and substantive provisions of this Section.

5.10.14 As-Built Plans

As-built plans for a Project receiving Plan Approval shall be filed with the Building Commissioner and the Plan Approval Authority after completion of Project construction of the Project and prior to the issuance of a Certificate of Occupancy.
